

SAHYOG -A BEGINNING...

NURSERY PROJECT 'SAHYOG-A BEGINNING ...'(COMMUNITY PROJECT FOR LESS PRIVILEGED) LAUNCHED BY HONORABLE CHIEF MINISTER, Ms. SHEILA DIXIT

Social Service forms the epicenter of all the school activities. The Nursery Wing of Shaheed Rajpal D.A.V Public School has always assumed the social responsibility and has shown commitment towards community projects. The school has consistently involved the students, teachers and parent community in various social projects .Last one year has witnessed the overwhelming response and cooperation of all in projects and events like-'SHRINKHALA', 'JOY OF GIVING', 'ECO-FRIENDLY DIWALI CAMPAIGN', 'BOOND', 'BOOKLICIOUS', 'HEALTH DAY', 'GO GREEN' etc. The rewarding experience has motivated us to take up yet another challenging project 'SAHYOG- A Beginning...'.

The project 'SAHYOG' is a joint venture of Nursery Wing and NGO, JAN HITH. The Project aims at making little initiatives for our less privileged children on streets and residing in neighborhood clusters. The project is designed as a training package for street children promoting basic hygiene awareness, conducting recreational activities, introducing them with basic education and providing educational material. Health Care, health checkups and nutritional supplement programme is also integrated with the project.

It gives us immense pleasure to share that Mrs. Sheila Dixit, the Chief Minister of Delhi launched the project 'SAHYOG' along with our student and teacher volunteers on May 11,2013.A group of 50 students from class I visited 3,Motilal Nehru Marg-Residence of Chief Minister Sheila Dixit to share the aims and objectives of their venture. She took keen interest and discussed the importance of being helpful to not so privileged. She emphasized that such approach should be inculcated right from the root level. Students presented a memento representing Eco-Friendly and social projects taken up last year by our school which was highly appreciated. She congratulated the students and teachers for commendable work in the field of community service. The interaction gave an impetus to our spirits and boosted the morale of our children.

We believe that with this magnanimous approach coupled with mammoth efforts of our students, teachers and parent volunteers working for less privileged is indeed a true service to mankind.
